# Client's Testimonials

Anindya Bhaumik is one of the most honest and good spirited SEO's I have ever met. In an industry where fly-by-night and shady companies take advantage of customer's lack of knowledge, Andy stands out as a trusted and reliable alternative and a great pleasure to work with. Andy has successfully handled several design and optimization projects for my company and left me feeling extremely fortunate to have found him as a resource. His work is of high quality, his communication is on point and I look forward to doing business with Andy for a very long time. Technology is one thing, but finding a person you can trust is the starting point of any successful project. I highly recommend Andy and his company if you are looking to cut out the noise, achieve results, maximize your optimization or design project, and receive great attention, honesty and support for the benefit of your business.

# Client's Testimonials

You have blown my mind with your SEO knowledge and implementation skills. Last week, I wasn't able to find our website on the internet. After a few 'waves of your magic wand', we are in first position on Google??? How you did it, I will never comprehend. Now I am concerned that we will not have the staff in place to answer the phones which will be ringing off the hook! Great work & I would recommend your service, expertise and professionalism to all of my business associates (as long as they don't steal our business)! Thank you for the great work.

- Tai Savet [www.VanquishLA.com](http://www.VanquishLA.com)

Andy has done very well with getting everything I need done in a timely manner. I send him my requirements and if he has questions he asks. He does quality work.
